

WHY SWITCH TO EKOENERGY?

THE RIGHT CHOICE FOR A SUSTAINABLE FUTURE

EKOenergy is a non-profit organisation providing the only international ecolabel for electricity and gas. In addition to being 100% renewable, the energy sold with the EKOenergy label fulfills strict environmental criteria and raises funds for new renewable energy projects.

100% renewable

Buying EKOenergy is simple as we have sellers around the world and the energy is guaranteed 100% renewable.

Climate

For each MWh you use, your supplier will contribute €0.10 to our Climate Fund, which we invest in renewable energy projects.

Sustainability criteria

Our strict sustainability criteria guarantees minimal impact on local environment.

Economically sensible

In general renewable energy is often cheaper than energy from non-renewable sources.

Marketing advantage

Consumers are actively looking for green businesses. Our international ecolabel effectively shows where you stand.

Recommendations

The Greenhouse Gas Protocol, LEED and CDP all recommend using EKOenergy.

Our logo

You can use our globally recognised label in your facilities, marketing material and products.

Dedicated international staff

We have a dedicated staff from over 10 countries, and materials available in over 30 languages.
