

DID YOU KNOW THAT **BEAUTY** CAN BE POWERED BY **GREEN ENERGY**?

76% of consumers want products made with renewable energy

69% stated that the reduced CO₂ footprint of the brand influences their decisions*

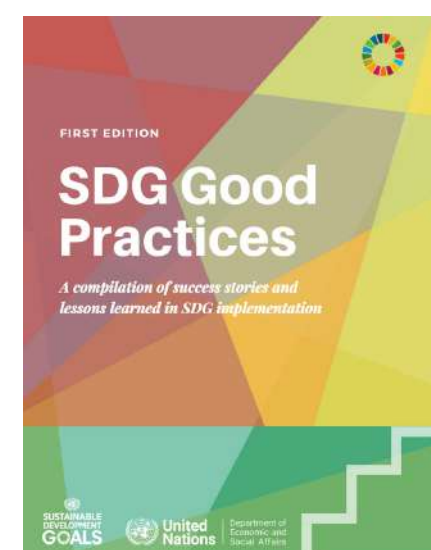

*Quantis report: *Make Up the Future: The Quantis Cosmetics Report*

Using clean energy is an **easy step** the beauty industry can take. EKOenergy-labelled renewable energy goes beyond and fulfils additional **sustainability criteria** & finances projects that **fight energy poverty**.

EKOenergy is an award winning, nonprofit ecolabel for renewable energy, available worldwide. Users of EKOenergy-labelled energy can use the logo in their communications to show their commitment to sustainable energy.
