

In 2015, the Greenhouse Gas Protocol referred to EKOenergy in its Scope 2 Guidance. Texts of CDP and the RE100 call EKOenergy a good solution too.

EKOenergy was one of the "100 Projects for the Climate", an initiative of the French Ministry of the Environment, Energy, and Sea in 2016. The award ceremony took place at the Embassy of France in Finland on Biodiversity Day 2017.

## 10 YEARS OF... growing recognition

- Over the years, we have received a lot of positive feedback. The growing group of EKOenergy consumers and authorised sellers shows that EKOenergy's work is noticed and appreciated, which encourages us to continue on the path that we have chosen.
- We are particularly proud that we have been nominated or selected for prestigious awards several times.
- We also really appreciate that several respected standards and organisations refer to our work.

EKOenergy was nominated for the Environment Award of the Nordic Council of Ministers in 2019.

Other ecolabels, such as the Nordic ecolabel, LEED and Green Key refer to EKOenergy in their own criteria.

In 2020, the EU Parliament awarded us the European Citizen's Prize.

Merve Güngör from EKOenergy's Secretariat was a finalist for the Young Energy Trailblazer category of the EU Sustainable Energy Award in 2021.

In 2016, we won the Taten für Morgen award from the German Council for Sustainable Development.

We got the Good100 PremaGyan Award at GoodFestival in Switzerland in 2016

In 2018, our "EKOenergy for breweries" campaign was a finalist of the EU Sustainable Energy Award competition (category Young Energy Leaders).
